

SITE INSPECTION REVIEW FORM

SITE NAME: NORDA INC.

ALIASES: _____

SITE I.D.#: NJD001307115

<u>ITEM</u>	<u>COMPLETE ?</u>	
	<u>YES</u>	<u>NO*</u>
SITE LOCATION (INCLUDING MAP)	<u>✓</u>	_____
SITE BACKGROUND	<u>✓</u>	_____
ENVIRONMENTAL SETTING (GEOLOGY, HYDROLOGY, METEOROLOGY, ECOLOGY + LAND USE)	<u>✓</u>	_____
WASTE DESCRIPTION (PRESENCE + CONDITION OF WASTE + WASTE MANAGEMENT UNITS)	<u>✓</u>	_____
LABORATORY RESULTS (CORRELATED TO SAMPLE LOCATION MAP)	<u>✓</u>	_____
HRS PRE - SCORE (PRELIMINARY + PROJECTED)	<u>✓</u>	_____
POTENTIAL FOR DIRECT CONTACT	<u>✓</u>	_____
CONCLUSIONS + RECOMMENDATIONS	<u>✓</u>	_____
REFERENCES	<u>✓</u>	_____

HRS PRE-SCORE: PRELIMINARY SCORE = 46-90

PROJECTED SCORE = 54-75

COMMENTS:

This site is a high priority L.S.I. candidate. Ground water contamination is pervasive over the entire Township of East Hanover; NJDEP has delineated the area a Well Restriction Area. Groundwater targets are at a maximum; 100,000 people within a 4-mile radius of the site are served by ground water. Sampling data demonstrate soil contamination by volatile organic compounds which appear in the ground water as well. (although any number of other input sources may account for similar organic compounds having contaminated the aquifer). The projected air migration pathway should not have been scored; it inflates the overall score (Sm) somewhat. There is a small mathematical error in this score.

Further sampling is not required at this time. NJDEP - BEECRA should oversee remedial efforts.
